# **Beach Boulevard and Edinger Avenue: Come Discuss the future of two of Huntington Beach's major streets**

The City of Huntington Beach is beginning work on a new vision and new zoning for properties along these two important streets. Participation from people living, working and doing business along and near Beach Boulevard and Edinger Avenue is needed. Join us at a community workshop to learn about corridor revitalization, economics and transportation, and to contribute your ideas and knowledge to this important effort.
